DETAILED ACTION

Election/Restrictions

The examiner has decided to drop the restriction requirement.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the frame must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 3644

The claims and specification are objected to because of the following informalities: there are many incorrectly spelled terms in the application such as "rotatable" in claim 29 or "clearanc" in claim 32. The applicant is highly advised to review the application to correct the informalities. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 26, 27, 28, 29, 30, 36, 37, 39, 40, 41, and 44 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claim 27, how do the rib means keep generally parallel to the spar longitudinal axis during 360 degree of angular rotation.

Claim 40, how could another wing sheets be arranged next to the wing sheets? What is the autonomous assembly?

What is the frame and how could the frame no transmit rotation to the rib means? The applicant has not described the frame in detail and the frame seems to be an important device to

Art Unit: 3644

the invention. Claim 39, does “them” refer to the rib means”? How can the rib means be driven for axial rotation while not hindering the relative movement between the wing sheets and the frame?

Claim 41, what is this “flanking the fuselage”? How can power be transmitted to the root portion of the flying surface?

Claim 44, what is the autonomous assembly to achieve the spar flex? How can the rotation being transmitted through a relative movement between the wing sheets of two adjacent flying surfaces be achieved? Please explain all of claim 44.

The list above is merely exemplary. The applicant is highly advised to review the specification to make sure there is support for the claims.

Allowable Subject Matter

Claims 23, 33, 24, 25, 31, 32, 34, 35, 38, 42, and 43 are allowed.

Claims 29, 41, 44, 26, 28, 30, 36, 37, 39 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 27 and 40 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
